Allowable subject matter

Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art neither discloses nor suggests the following limitation, in combination with the remaining elements as disclosed in claims 1, 4, 7, 8:

A database processing module configured to access the file system processing module with reference to content management information for management of contents stored in the recording medium and to read the file search information without reference to the file system and register attribute information corresponding to a file including at least the content management information into the file system with reference to file search information such as required by claims 1, 7;

A database processing module that accesses the file system processing module with reference to content management information for management of contents stored in the recording medium and a step of employing the data base processing module to read from the recording medium, when mounting a file system file search information indicating a physical recorded position of a file having the content management information stored therein without reference to the file system and register attribute information on a file including at least the content management information into the read file system with reference to the read file search information such as required by claims 4, 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2163

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
